MISSION: TEAM VS. TEAM ENGAGEMENT, 10 MINUTE ENCOUNTER, HEAT IS OFF, RETURN IN SAME MECH

DE-BRIEFING SHEET EXPLANATION

The top of your Mission De-Briefing sheet contains the complete damage tallies from your encounter.

Score:

Your score is shown under your name, in the top box. All players start with a score of 1000 and go up or down from there. For every point of damage you inflict on an enemy player you receive one point. For every point of damage you take from another player you lose one point.

BattleMech Kills:

This is the number of enemy BattleMechs you actually destroyed during the encounter, there types are shown to the right.

Times Destroyed:

This is the number of times that your BattleMech was destroyed by enemy forces.

The Damage Matrix:

The next box contains a matrix that allows you to see exactly what damage each player did to each other. The first four columns of the table repeat the information about Mechs, Scores, Kills, Deaths for each player. The table entries are all in the format of Damage Points/ Kills.

To see how much damage you did to a player, look at **Your Row** and read across until you find that players column. The first number is the amount of damage you did to that player, the second number is the number of times you killed that player.

To see what other players did to you, look at **Your Column**. As you go down this column you will see what each player inflicted on you, the first number is the damage you took from that player, and the second number is the number of times that player killed you.

The Mission Log:

Major events in the battle are logged by the second. This does not include all hits, only major events.
